# McClain

## TRAILERS inc.

**"BUILT FOR THE LONG HAUL"**

is a family owned and operated business that was established in the 1950's by V.H. and Doris McClain. A true testament to the American entrepreneurial spirit, McClain has grown from building one trailer a week to over 6,000 trailers a year. Today's market leader in the manufacturing of quality boat trailers, McClain offers a complete line of aluminum and galvanized trailers for inboard, outboard and I/O boats. Each custom McClain trailer is **"Built For The Long Haul"** at our 100,000 square foot manufacturing facility in Houston, TX. The quality built into each trailer is a result of customer expectation, a highly trained workforce and our excellent management team. We have expanded to 3 locations to meet the growing needs of our customers. Our manufacturing plant is located at 7203 Cowart St. Houston, TX. We recently opened a new parts and repair store at 1008 Lathrop, just minutes east of downtown Houston. Our third facility is located at 6800 Airline Hwy., Baton Rouge, LA, across the street from Don's Seafood. Our Baton Rouge store is a full service facility that carries a complete line of trailers and parts.
